

Marcos Dionel Iannibelli

Software Engineer

Buenos Aires, Argentina ▪ hello@marcosdionel.com ▪ (+54) 11 6631-5085 ▪ marcosdionel.com

Software engineer with experience in functional requirements analysis and scalable, end-to-end solutions, aligning technical decisions with product and business objectives. Experienced in developing comprehensive applications with a strong focus on architecture, performance, and security. Skilled in interdisciplinary collaboration and capable of driving projects from conception to delivery in dynamic environments.

AREA OF EXPERTISE

Full-Stack Development | Requirements Analysis | Software Architecture | API Design | Cloud-Based Solutions | Object-Oriented Design & SOLID Principles | Testing & Code Quality | Performance Optimization

PROFESSIONAL EXPERIENCE

Software Engineer

Aug 2025 - Present

Codescript

- Led end-to-end development within a distributed microservices architecture, contributing across both frontend and backend systems.
- Architected and implemented Angular-based microfrontends within an Nx monorepo, improving scalability, modularity, and development workflows.
- Designed and integrated backend services using event-driven patterns (CQRS, RabbitMQ), enabling reliable inter-service communication and business logic execution.
- Acted as temporary technical lead during critical phases, driving architectural decisions and unblocking delivery bottlenecks.
- Mentored and onboarded new developers while collaborating cross-functionally with Product, QA, and DevOps to deliver high-quality releases aligned with business requirements.

Social Media Content Creator

May 2024 - Present

Instagram & TikTok @dioneldev

- Built a personal brand with 10,000+ followers on Instagram, establishing a strong presence in the tech community.
- Created, recorded, and edited educational content focused on frontend and backend development.
- Shared insights and programming concepts, fostering a growing and engaged developer community.

Freelance Software Developer

Oct 2023 - July 2025

Autonomous

- Built end-to-end websites and apps with modern technologies (React, Next.js, Astro, Node.js) ensuring performance, scalability, and responsive design across devices.
- Designed and integrated RESTful APIs and database architectures (MySQL, PostgreSQL, MongoDB) to ensure secure, reliable, and efficient data management.
- Delivered custom business solutions tailored to client needs, including e-commerce platforms, booking systems, and dashboards for data analytics.
- Collaborated directly with clients, translating business requirements into functional, high-quality digital products with a focus on usability and long-term maintainability.

EDUCATION

Systems Analyst

March 2024 - December 2027 (Expected)

- Escuela Da Vinci

Full Stack Web Developer

April 2022 - December 2023

- Coderhouse

SKILLS

Programming Languages: JavaScript | TypeScript | Java

Frontend Technologies: React | Angular | Next.js | Astro

Backend Technologies: Node.js | Nest.js | Docker | Jest | RabbitMQ

Databases: PostgreSQL | MongoDB

Cloud Services: AWS | Microsoft Azure | Azure DevOps | ArgoCD | Kubernetes

Version Control: Git

Automation: n8n

AI: Claude | Cursor

LANGUAGES

English

- Intermediate - B2
